JA

V.

BEST MANAGEMENT PRACTICES (BMP) PLAN:

The BMP Plan for Canyon Springs has been reviewed this year, and fulfills the requirements set forth in the permit.

VI.

SUMMARY OF LAND APPLICATIONS:

Facility effluent water was land applied by irrigation on the Canyon Springs Golf Course during the the period of March through November. Estimated water volume applied is calculated as:

Approximately up to a maximum,

1200 gpm for 12 hours daily for 8 months = 208 million gallons.

No dredging occurred during 2019.

VII.

OFFLINE SETTLING BASIN DISCHARGE FREQUENCY

Not applicable to the Canyon Springs farm.

VIII.

CHEMICAL USE SUMMARY:

See 2019 external treatment record attached to this report.

See 2019 internal treatment record attached to this report.

IX.

FISH IMPORTATION, TRANSPORT, AND RELEASE PERMITS:

None for 2019.

X.

INSPECTIONS AND REPAIRS FOR PRODUCTION AND WASTEWATER TREATMENT SYSTEMS.

Routine inspection, maintenance, and repairs to fish screens occurred during the year. Repairs to screens occurred throughout the year as needed. No repairs occurred to wastewater treatment system in 2019.

XI.

SUMMARY OF FEED PRACTICES:

Current feed used at this facility is:

Rangen fry feeds, 45% protein.
Rangen fingerling feeds 45% protein.
Rangen bulk production feed 5/32", 35% protein.

Feed was fed 4 times daily by hand at hatch-house, and 1 times per day by hand and with demand feeders at production ponds.

Percent Phosphorus contained in the feed is calculated at 1.0-1.2 % (Rangen Inc.).

V11.

CLEANING RECORD SUMMARY:

See 2019 pond cleaning record attached to this report.

V111.

SUMMARY OF NOTICE OF INTENT PRODUCTION CHANGES:

No production changes are anticipated at this time.
